

Product Identification

Section 1

Product name	Florotint Safety Yellow
Part number	C2-008
Product usage	Colorant for Florock Florothane MC/HT
Company	Florock Polymer Flooring 1120 W Exchange Chicago, IL 60609
Phone	773-376-7132
Chemtrec	800-424-9300

Hazard Identification

Section 2

GHS Classifications Skin corrosion/irritation: Category 2,
Eye irritation: Category 2,
STOT (SE): Category 3,
Carcinogenicity: Category 2

Signal word **Warning**

Pictograms

Hazard statements H315 Causes skin irritation
H319 Causes serious eye irritation
H335 May cause respiratory irritation
H351 Suspected of causing cancer

Precautionary statements P262 Do not get in eyes, skin, or clothing.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective/eye protection/face protection.
P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor.
P391 Collect Spillage.
P351 Rinse cautiously with water for several minutes.
P338 Remove contact lenses if present and easy to do. Rinse Continuously.
P501 Dispose of contents/container in accordance with local/regional/national/international regulation.

Additional hazard Percentage of mixture with unknown Acute Toxicity:

Information *none*

Composition Information of Ingredients

Section 3

Component	CAS No.	Weight %
Formaldehyde, polymer with 1,3, dimethylbenzene	26139-75-3	20-60
Pigment (contains Titanium Dioxide)	Proprietary	20-60
Wetting agent (mixture) phosphoric acid 2-methoxy-1- methylethyl acetate	Proprietary	<3

Where a range is displayed or the exact percentage of the component in the composition has been withheld it is considered a trade secret.

Ingredients not listed on this SDS are considered to be non-hazardous and below the concentration levels necessary for GHS classification.

First Aid Measures

Section 4

General	Consult a physician. Show the physician this SDS. Move out of dangerous area immediately.
Inhalation	Move person to fresh air and breathe normally. If experiencing respiratory problems call POISON CENTER or doctor.
Eyes	Rinse cautiously with water for several minutes. Remove contact lenses if present. If eye irritation persists get medical attention.
Ingestion	Immediately call POISON CENTER or physician. DO NOT induce vomiting. Do not eat, taste, or ingest. Rinse mouth if person is conscious.
Skin	Take off all contaminated clothing. Rinse skin with water. Wash with soap and water. If skin irritation or rash occurs get medical attention.
Most Important Symptoms/Effects	
Acute	Nose, throat, and lung irritation.
Delayed	Sore throat if exposed to vapors over time

N/D = No data available for the mixture

Fire Fighting Measures

Section 5

Extinguishing media Use water spray, alcohol resistant foam, dry chemical or carbon dioxide.

Extinguishing methods	Water may be used to keep exposed containers cool, and to keep flammable structures wet.
Special protective equipment	Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.
Special hazards	Carbon Oxides, ammonia gas, nitrogen oxides
Important additional information	Containers may explode upon exposure to excessive heat and fire situations. Water may be used to keep exposed containers cool, and to keep flammable structures wet. Do not enter fire area without proper protection because hazardous decomposition products may be present. Sealed containers may explode if overheated.

Accidental Release Measures	Section 6
-----------------------------	-----------

Personal precautions	<i>Protective equipment:</i> Protective respirator, safety goggles, and gloves. Ensure adequate ventilation. Avoid breathing dust. <i>Emergency procedures:</i> Evacuate personnel to safe areas.
Methods for clean up and disposal	Collect the material using absorbents or other equipment required by the size of the release. Decontaminate the area, collecting any cleaning and rinsing media for proper reclamation or disposal. Soak up with an absorbent and place in non-leaking containers. Seal tightly for disposal according to local and federal regulations.

Handling and Storage	Section 7
----------------------	-----------

Precautions for safe handling	As with any chemical product, use good laboratory/workplace procedures. Do not cut, puncture, or weld on or near the container. Use under well-ventilated conditions. Wash thoroughly after handling this product. Always wash up before eating, smoking or using the facilities. Avoid eye and skin contact. Avoid drinking, tasting, swallowing or ingesting this product. Wash contaminated clothing before reuse. Discard shoes contaminated with this product. Avoid formation of dust and aerosols. The potential for combustible dust formation should be taken into consideration before additional processing occurs, like sanding and grinding. Provide appropriate exhaust ventilation at places where dust is formed.
Conditions for safe storage, including	Protect container from physical abuse. Keep the container tightly closed. Store in dry well-ventilated areas. Do not store in open, unlabeled or

incompatibilities mislabeled containers. Do not reuse empty containers. Do not store near acids.

Exposure Controls/Personal Protection **Section 8**

Component	CAS#	ACGIH/TLV	OSHA/PEL	*V/P
Formaldehyde, polymer with 1,3, dimethylbenzene	26139-75-3	N/D	N/D	N/D
Pigment (Contains Titanium Dioxide)	Proprietary	10	15	N/D
Wetting agent phosphoric acid 2-methoxy-1-methylethyl acetate	Proprietary	N/D	N/D	N/D

*Vapor Pressure limit

Engineering Controls

Ventilation Local and general ventilation controls recommended. Wash hands before breaks and at the end of the workday.

Personal Protective Equipment

Eye/Face protection Protective safety goggles and/or face shield. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Other protective considerations Wash hands before eating, smoking, or touching the facial area.

Physical/Chemical Properties **Section 9**

Physical state Liquid
 Appearance Yellow
 Odor N/D
 Flashpoint > 200 F
 Vapor density Heavier than air
 Liquid density Heavier than water
 Volatiles volume 0%
 Evaporation Rate n-Butyl Acetate
 pH N/D
 Vapor pressure N/D
 Relative density 1.48
 Solubility Insoluble
 Partition coefficient N/D
 Auto Ignition temp N/D
N/D = No Data Available

Stability and Reactivity Section 10

Chemical stability Stable under recommended storage conditions
 Hazardous reactions Will not polymerize
 Conditions to avoid N/D
 Incompatibility Oxidizing agents and strong alkalis
 Hazardous decomposition products Incomplete combustion for products like this may generate highly poisonous carbon monoxide, carbon dioxide, and oxides of nitrogen.

Toxicological Information Section 11

Routes of exposure Inhalation, skin, eyes, ingestion
 Symptoms of exposure *Acute Toxicity:* Mild eye, skin, and respiratory irritation
 Chronic Toxicity: Prolonged exposure to vapors may cause sore throat.
 Carcinogenicity N/D
N/D = No Data Available

Name	CAS#	Oral LD50	Dermal LD50	Vapor LC50
Formaldehyde, polymer with 1,3, dimethylbenzene	26139-75-3	> 2000 Rat	N/D	N/D
Pigment (Contains Titanium Dioxide)	N/D	> 10000 Rat mg/m3	> 10000 Rabbit mg/m3	N/D

Wetting agent (mixture)	Proprietary	2-methoxy-1-methylethyl acetate 50 ppm	N/D	N/D
phosphoric acid		phosphoric acid		
2-methoxy-1-methylethyl acetate		1 mg/m3		

Ecological Information

Section 12

Keep out of sewers, drainage areas, and waterways. Report spills and atmospheric releases, as applicable, under Federal and State regulations.

Disposal Considerations

Section 13

Dispose of container and unused contents in accordance with federal, state, and local requirements for hazardous materials. Do not allow to enter the drainage or water system.

Transport Information

Section 14

DOT Proper Shipping	
Name:	Not Regulated
Packing Group:	
DOT Hazard Class:	
DOT UN/NA Number:	Not Regulated

Regulatory Information

Section 15

Contact manufacturer for information on specific territorial regulatory information.

Other Information

Section 16

NFPA/HMIS Rating

Health N/D

Fire N/D

Reactivity N/D

Classification and hazards statements are listed according to the United Nations Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

Regulations in individual countries/regions may determine which classifications and hazard statements are applicable based on adopted hazard classes and categories.

Precautionary statements are listed according to the United Nations Globally Harmonized System of Classification and Labeling of Chemicals (GHS) - Annex III.

Regulations in individual countries/regions may determine which statements are required on the product label. See product label for specifics.

The information provided in this **Safety Data Sheet** is correct to the best of our knowledge, information, and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release. It is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process unless specified in the text.
