

FloroCrete Powdered Colorants For Use with FloroCrete Cementitious Urethane

Product Description: FloroCrete Powdered Colorants make pigmenting Neutral FloroCrete Cementitious Urethane fast and easy. Available in pre-measured bags and 5 popular colors, they allow for convenient jobsite tinting. FloroCrete Powdered Colorants add no solvent to the blended resin, do not interfere with cure time and exude no odor.

Instructions for Use:

1. Mix FloroCrete Neutral, Parts A and B in accordance with appropriate technical data sheet instructions.

Add FloroCrete Part C, along with appropriate amount of FloroCrete Powdered Pigment as seen in chart at right.

2. Blend thoroughly as instructed to achieve a uniform appearance.

3. Apply in accordance with FloroCrete technical data sheet instructions.

Note: FloroCrete Powdered Pigments are for tinting Neutral FloroCrete Kits only. Always tint entire kit.

Note: The pigmentation of Neutral kits may result in a change of their chemical resistance properties.

Note: Consult your Florock Representative for assistance with calculating product quantities. All coverages are approximate. Applications vary.
